PROJECTS

Paystub | *Html, css, NodeJs, MongoDB, ExpressJs, JQuery*

- Paystubusa.com is an online paystub generator designed to create accurate and professional payroll stubs quickly.
- It offers a user-friendly platform for employers and employees to generate payslips, supporting legal compliance and financial planning.
- The service includes customizable templates and secure data handling, making it a reliable tool for payroll management.

Onlinebillgenerator | *Html, css, NodeJs, MongoDB, ExpressJs, JQuery*

- Onlinebillgenerator.com is a web-based tool designed for creating professional financial documents such as paystubs, utility bills, invoices, W2 forms, and 1099 MISC forms.
- It offers a user-friendly interface with customizable templates, allowing users to generate accurate PDFs quickly without requiring sign-up.
- The platform emphasizes security, confidentiality, and ease of use, catering to individuals, freelancers, and business owners needing reliable billing solutions.
- Documents can be previewed, adjusted, and downloaded instantly after purchase, streamlining financial documentation processes.

Idea Portal | *Html, Css, Javascript, React,Php*

- This portal enables users to share innovative ideas and inventions, fostering a collaborative environment for creativity.
- Individuals interested in these concepts can explore and initiate implementation.
- Developed as a college design engineering project, it showcases practical application and teamwork in building a platform for idea exchange and execution.
